

Floor Mud

Portland Cement Mortar Bed: A factory proportioned blend of Portland cement and graded silica aggregates developed to produce a dense 1-1/4" to 2" substrate complying with ANSI A108.1 (A, B, or C) (as manufactured by Texas Cement Products, Inc.). Use La-O-Tex Liquid to produce a Latex-Portland cement mortar bed for "extra heavy-duty" rated floor, higher compressive strengths, and freeze thaw resistant installations.
