

#### A-Crylic Mortar Additive

Dry-Set Additive: Liquid latex additive shall be TexRite A-Crylic Mortar Additive used in lieu of water with TexRite Dry-Set mortars to produce a high solids Latex-Portland Cement Mortar for setting absorptive, semi-vitreous vitreous or impervious tiles over a variety of substrates including exterior grade plywood (as manufactured by Texas Cement Products, Inc.). Material shall meet or exceed ANSI A118.4 and ANSI A118.11 when mixed with TexRite Dry-Set Mortars.
